ES5 Series

(cULus Certified Product)

CONNECTOR

MB-0246-3

May 2013

RoHS Compliant

Socket (ES5S001JFA)

 Plug (ES5P09K5FA: 24 to 26AWG)
 (ES5P09K4F2: 22AWG)

The ES5 Series is a compact, low-profile 1-pin connector that is compatible with stranded cable. This connector is perfect for use in a wide range of applications including LED lighting, LCD TV backlight, tablet PC, and other compact devices. The ES5 Series is cULus Certified Product.

Features

- cULus certification: File No. E351164 
- No insulator, low-profile design (connector height: 1.6mm).
- Detachable locking structure (connector retention strength: 16N min.).
- Mis-mating prevention structure.
- Receptacle is available in embossed reel packaging for automated mounting.
- RoHS compliant.
- Exclusively for stranded cable.

Notice:

1. The values specified in this brochure are only for reference. The products and their specifications are subject to change without notice. Contact our sales staff for further information before considering or ordering any of our products. For purchase, a product specification must be agreed upon.
2. Users are requested to provide protection circuits and redundancy circuits to ensure safety of the equipment, and sufficiently review the suitability of JAE's products to the equipment.
3. The products presented in this brochure are designed for the uses recommended below. We strongly suggest you contact our sales staff when considering use of any of the products in any other way than the recommended applications or for a specific use that requires an extremely high reliability.
 - (1) Applications that require consultation:
 - (i) Please contact us if you are considering use involving a quality assurance program that you specify or that is peculiar to the industry, such as:
Automotive electrical components, train control, telecommunications devices (mainline), traffic light control, electric power, combustion control, fire prevention or security systems, disaster prevention equipment, etc.
 - (ii) We may separately give you our support with a quality assurance program that you specify, when you think of a use such as :
Aviation or space equipment, submarine repeaters, nuclear power control systems, medical equipment for life support, etc.
 - (2) Recommended applications include:
Computers, office appliances, telecommunications devices (terminals, mobile units), measuring equipment, audiovisual equipment, home electric appliances, factory automation equipment, etc

Japan Aviation Electronics Industry, Limited
